

Form to Add, Drop, or Change a Course (Master Course List Revision Form)

Please follow these instructions carefully:

- Departments should email this form to the Dean's Office for each course. This form is used to update the Master Course List (MCL), which is an inventory of all courses that could be offered by the department. Adding a new course to the MCL does not automatically make it available for printing in the Schedule of Classes for registration. Therefore, a separate notification **must** be sent to the Scheduling Office to add this course to the Schedule of Classes and **activate it** for registration. Courses that are not offered for a particular semester should not be dropped from the MCL. However, when a department decides to discontinue offering a course permanently, this form should be used to drop the course from the MCL.
- After a course has been approved by the Dean's Office, email this form to Beth Nehlsen at nehlsen@echo.rutgers.edu.

To	School: 16	Supp:	Subj: 940	Course: 653	Credit: 3	Prefix:
	Short Title (max 20 characters): Data Science					
	Full Title (max 80 characters): Data Science for Linguists					
	Prereq: None					
	Coreq: None					
	Special Notation: None					
	Description: This course examines the fundamental principles of doing experimental research in linguistics. Students learn advanced techniques used to explore, tidy, visualize, and analyze data, as well as how to make the aforementioned procedures reproducible and shareable. Students will develop a foundation in programming in R, as well as learning the most common tools at the disposal of todays data scientist (i.e. GitHub, Knitr, etc.).					

Effective as of:

Term: **Fall**

Year: 2022

A. Originated by:	First	<u>Joseph</u>	Last	<u>Casillas</u>	Date	<u>2-26-2022</u>
B. Dean Approval:	First	<u>EILEEN</u>	Last	<u>KOWLER</u>	Date	<u></u>
C. Processed by the University Scheduling Office:	Scheduling Officer	<u></u>			Date	<u></u>

*** For a new course to be activated for registration**, please contact the Scheduling Office with detailed information, such as meeting time, stop point, etc.
